I got a call today from Sheila homes Howard who is a realtor and attended the meeting of the Realtors last week. After the meeting, Jeff Berding address the group to pitch FC and told the group that I was causing all the trouble in the West End and that I was paying people money to disrupt meetings. And When the question was asked where was the money coming from, he told them the health Gap. My board chair asked me to share this with you.

Yes I think it starts at 6 o'clock and it's a dinner conversation about racism. Al Sharpton will be the keynote speaker. I'll speak with Bishop and see what we can work out but if we start at six then I think it's fine if you leave it 715. Just trying to keep you in the loop. By the way I did speak to Harry regarding monies that we were supposed to owe and we had a very good conversation and he was very reassuring that everything will be all right. He spoke highly of you and seems to understand more more about what Cranley is up to especially as it relates to efforts to get rid of chief Isaacs and possibly him as well. I shared with them that you are 100% behind him so I don't think that's going to happen.

Also there is an event on April 14 a Saturday luncheon by organization call women's alliance. This is a group of very influential black women in the community and I would like very much for you and your wife a possible to be my guess is I will be one of two honorees. I'll get that information to you as well

I still am so confused how John operates as an executive Mayor. I was just reading about the partnership with the city and the chamber to create this office of immigration where Steve Driehaus and another person will lead it. Did The city Council vote on monies for this office? And of course everyone knows that Cranley and the Driehauses Or thick as thieves. This man has rewarded so many of his cronies that he makes Boss Cox look like child's play. This really needs to stop it's just a shame and we need to do something about keeping him out of running the city. I know Landsman and Dennard were looking at creating an office of civil rights which could contain and Inspector General to look at what is going on in city government as well as the politicians. There has to be some way to stop this maniac. And by the way, nobody's asked to bid out this immigration office. So frustrating

Great job today

Good morning. As I look at the committees of council, I noticed that health is still in the budget committee. The reason why it's there is because I asked Cranley during our honeymoon to put it under Winburn. I have never gotten the sense that Mann is a fan of the center. But more importantly I think the work we do which is about health disparities/health equity absolutely fits within Dennard's committee. What would be the easiest way to shift it under Dennard? Please let me know as we are interested in presenting I work to that committee prior to the budget process. We do need a friendly and understanding committee chair for us to present our work too. Let me know how you want to handle this.

12:25

P.G. <+

(iMessage)>

I personally support health being in Tamaya's committee. It would take a motion supported by a majority. If we were to go down that route, Tamaya would have to talk it thru with Mann. I have no idea if he'd want to keep it or not...

12:27

Dwight Tillery <+

(iMessage)>

He spoke in the past as if he did. Another way we could go at this is not say anything and we come into her committee for presentations because our work is health equity. The health department was actually under the budget committee as well. So maybe the best thing to do is let sleeping dogs lie and see if he has a reaction. And even if he has a reaction, Tamaya can say that it's the kind of issue that could be involved committees. I just don't trust Mann these days especially his relationship with Cranley

I'm hopping on 730am flight. If available before then, give a call 06:19

Dwight Tillery <+ (iMessage)>

PG I just got off of the phone with Landsman and he will be fine. However, Black is going to have to work with him and Seelbach to get their support. Whatever you can do to help lead and mediate those relationships will make all the difference. We are still meeting at five today to discuss next steps if any. I understood Landsman's feelings about Black as you know and I shared with him that he hasn't been my biggest champion but we still need him in that position and Greg says he has no intent to sign anything to get rid of the manager. Black has to give Landsman and Seelbach love and then we will have a powerful collation. I think that's very very possible. 13:52

Black should be calling you if he hasn't already within a few minutes. Just had a meeting with Cranley and Cranley threatened him if he didn't resign. Cranley knows you have the power now and so we've got to make those members to hold tight Cranley promised to run a smear campaign against the manager if he didn't resign. Landsman and Seelbach has to know what is at stake here now. This city could blow up any moment. 15:02

P.G. <+ (iMessage)>

Spoke to him. 16:07

Told him council and community have his back and he must not bow to the threat 16:07

Dwight Tillery <+ (iMessage)>

Right but he seemed pretty shaken and I don't want him to wind up quitting and we didn't see it coming. I never heard him sound so shaken before. He even asked me what should he do which has been typical of Harry but I told him absolutely do not resign. I'll keep you posted about the 5 o'clock meeting in the community but PG cranley is really doing what Trump does and he is really stirring up the racial issues in this community Of 16:13

course he's working behind the scenes to keep his hands clean.

I mentioned to you about putting on the ballot a recall provision. 16:11
I wonder if that would make John back away. It can be done
and I think he would be recalled.

Your reaction to Cranley's call. Pastor thinks it's about the Chief 19:34
and the female officer. See what you can learn. We had a good
meeting but don't want to wind up with egg on our face.

G. <+ (iMessage)>

What call from Cranley? 19:34

Asking for resignation? 19:35

Or some phone call? 19:35

Dwight Tillery <+ (iMessage)>

[FullSizeRender\(2\).jpg](#) 19:37

Dwight Tillery <+ (iMessage)>

Not sure what Cranley has but he's meeting with Pastor and I 19:39
assume other Councilmembers to get Harry to resign

19:40 <+ (iMessage)>

John hasn't even reached out to me once, which is telling 19:40

But hopefully Pastor will report back to you

We just need to keep Greg & Chris, which I believe we can. 19:41

And they're good for now.

Dwight Tillery <+15 (iMessage)>

Yes. But Pastor is suggesting that the chief is in some kind of sexual affair with the lady police officer. Pastor won't be specific but he said that John showed up at his house unannounced and laid out some information about black and the chief. It's all on the news and in the papers. Landsman will be leaving town Sunday. I did speak with Black after our meeting and told him to hold tight. Thomas, Young, Hilton, Mallory are strong. You need to plan out what John is pedaling around with the other councilmembers. 19:45

P.G. <+ (iMessage)>

Have heard rumor of possible affair, but no one seems to have any proof. Did Pastor say what John revealed between Black and Isaac? 19:48

I'll try to dig up what they're peddling and conler w/ other council members 19:50

Dwight Tillery <+ (iMessage)>

No but he would only indicate that would ever information he had was more about the Chief. You may want to contact Black and ask him if there's anything that you need to know 19:51

P.G. <+ (iMessage)>

Will do. 19:51

In a day of high drama at City Hall, African-American groups began to organize to back Black. Among them are the Sentinel Police Association, a group of black police officers; the Cincinnati chapter of the NAACP, and the Black Agenda, a group led by former Cincinnati Mayor Dwight Tillery, who now runs a non-profit community health group.

In recent years, members of these groups have become outraged at what they believe is a succession of smear campaigns against black leaders, which include former police chief Jeffrey Blackwell, ex-Councilman Charlie Winburn and former Metropolitan Sewer District director Tony Parrott.

Hate to bother you and even have to deal with this on my birthday today but Jon is throwing everything he can against black to get him to step down. Unless there's some very visible support from the council and secondarily, the black community, I'm afraid that Black might get weary in the next few days and step down. You need to think about holding a special session of council and deal with John for the way in which is viciously attacking black that this is not the process of addressing grievances about the manager and set up a committee to take a look at those allegations. Secondly in lieu of or in addition to, call for a press conference with some black leaders and have a very strong statement about the attack in the racial polarization that Jon is creating. That this is not the way in which to deal with an employee of the Council. You guys can't sit on the sidelines while Cranley is hammering away at your top employee. John supposedly to have a tape where black called Cranley was cussing about white people and black people and that is the tape that he is plans to put out there. Winburn told me about that last night but I don't care if he did make comments about racism in the problems in this community that does not entitle Cranley to wage a smear campaign against him as he said he would. I think Harry will hold on but you guys have got to say something Monday or Tuesday but if you don't he very well may pack his bags and leave. I think it would be the worst thing for him to do as John has already has launched his attack. According to Winburn gotten John is going to drop crap on black until he leaves. But the Councilman is the man that he stop it and I'm in the process of grievances against the manager. But of course Cranley understands that he can't win that way he knows he doesn't have a votes. This is what is trying to do but you can come back to town and talk about a process to addressed any of these grievances and this way you take away Jon's ability to continue to attack the manager. If he does continue did everybody sees that is Cranley who is the rogue baer. Be sure and text Black I'll give him some sense that we are there. He's got to feel lonely in the next few days.

07:40

Can you call me? Important strategy

09:01

Just spoke with Black and he's comfortable with you guys not doing anything so take my suggestion off the table,

I'm doubtful there's some smoking gun, or John would used it already. And Harry says there's not.

09:09

Dwight Tillery <+151

(iMessage)>

OK so now we go after Smitherman and all the contracts his brothers gotten. I believe Black when he says there is no smoking gun. This is a collaborative effort to take the man the man down and we have to fight back and we have to go after the allies of John who is attacking the manager. Talk with Wendell last night our goal is to have a conversation today to have a major press conference in the black community. It's nice if Black could give us some very confidential information about Cranley's behavior. I have the investigator at channel 12 poised to go and do the story. Sittenfield this is almost Blackwell over again and this community will not stand for it. I'm telling you that this place will go up in smoke if John continues against black. Far too many black people in this community are still angry about how blackwell was treated even though the manager had a hand in it. But they are willing to put that aside to fight John. Cranley is not liked in the black community it is the handful of folks that he's given contracts to but no one has gotten more than his brother. And even if there is nothing illegal anything illegal With his brother it's a clear relationship between them. I have come to the position now that this is about Cranley being in there with the police and the police wanting to have their way with their own chief. As you may know, Saturday morning Cranley issued a statement saying that he in the police chief were cool but that was just a ploy so he doesn't get accused of trying to get rid of the chief. Crafty little bastard

09:21

Cranley told me yesterday that Eliot Isaac's report of bad behavior on the City Manager's part would be a part of the portfolio he putting together to get Black out as well. 09:47

I don't know if that's true 09:47

Dwight Tillery <+1 (iMessage)>

OK so this begins to make me feel that the boys in the Police Department has something over the chief and they are leveraging that up against black. When do I don't think you can wait another day to talk to Issac nor Ken the manager we need to know what this boy is trying to do. Chief is going to come clean and how does he report on Blanks behavior. I don't get that but that's what John came out Saturday and said he so it supports the chief so I am worried that the chief has made a deal with John to be against black and that's really not gonna be good. But he's a fool because once Black is gone he's gone. But they may have some information that the holding over the chief's head 09:53

P.G. <+ (iMessage)>

I just called the Chief and he told me directly that he absolutely still stands with Harry, despite whatever rumors might be swirling, and that he believes if Harry gets terminated, that he (the Chief) will be the next to go 10:09

Dwight Tillery <+ (iMessage)>

Very good to know. I think John should be call be called out on lying on the chief and others to get things his way. This is a serious matter and he should not be conducting his own investigation. Again I think you guys can get ahead of John by putting together a process that The council controls and insist on the mayor start conducting his own individual investigation because I'm sure it is quite timid dating if he is calling people twisting their arms to give testimony. This is absolutely inappropriate and he needs to be called out on it ASAP 10:11

The rumors are flying wildly. The only thing I have to say is that Black should not be able to put all of us out there fighting for him and then walk away with a pocket full of money. If he goes, let him go without any severance package. And of course, if he does go, then King Cranley is still on the throne and you guys will still have to deal with him for almost 4 years. This is really shameful and there should be Great pressure on Black to stay at least for the next year or two. We really can't afford to give Cranley a win on this one. Also, I'm fearful that Wendell will simply go his own way which will weaken the collision and your ability to gain the leadership of the Council. Hope you guys can talk him into staying. 13:53

P.G. <+>

(iMessage)>

I've already told him directly, if he walks, I'm a no vote on any severance package 13:54

Dwight Tillery <+>

(iMessage)>

Great! Is he really considering it? Winburn is saying that Pastor said that you had agreed to a eight month severance package. Tell Charlie I did not believe it. Well you got a hold the line with the others. This is really awful if he turns his back on you guys and the black community in particular. I'm told that Cranley is asked Black to reach out to Cranley's black leadership friends to support a severance. Sittenfeld we are really dealing with a real psycho in Cranley. You guys have got to pull together and take control. Begin to change the rules of the council. Yeah, I think you have to get in the battle with the other councilmembers that or it least supportive to give a concerted effort to black that he's will be supported but if he leaves he will go without you guys approving a severance package. Like it or not, John is going to battle you until you knock him out. He has got to be in charge of everything. All powerful but councilmembers have to start going after him and commenting on his behavior. That happens all the time when we were on Council. When everything is silent from the council it makes John even more in control. This is all ego by that boy 14:00

As I looked at this entire situation, the issue of white officers not wanting to work with a chief who is black is a very very serious 14:42

problem and it really demands council to address it.

The more I go over all of this information we keep failing to recognize that plaque said the white officers didn't want to work for Black chief. I don't think counsel can let this be swept under the rug. Additionally how dare the mayor want to far this man and you guys need to go after the mayor. There is a need for leadership here

I read what Cranley is doing that setting up meetings to hear from people to lambaste the manager. Sittenfield you guys have got to take control of this. John has no authority to do what he's doing. You also may recommend that Black should get an attorney as well because John is creating a hostile working place for Black. You guys have got the range on AM. I talk to you last week about setting up a process letting John know that he can do his own investigation put his own stuff together and then come to the city Council to accept it. If you guys don't do something to push back on John and he gets his way by having employees give all of this crap that they might say against black, Harry will probably leave. You guys of got to see this I mean I I just don't understand the silence. You know If Harry leaves it will not be enough for you guys to sit there and say well we had a ball. We supported that's not support. If you support him you guys need to go to battle against John. How can you go to employees employaes and get them to testify against their boss. Don't you see what's wrong with this

Spoke to Joe Mallory to see if we could hold a press conference this evening to indicate that this is not a good move tomorrow to have such a meeting and putting the manager on trail as it will likely result and civil disturbance. You guys can use that as a reason of not doing it that the volatility in the black community will bring more harm than good it's a easy one nobody can prove or disapprove it. Just heard that Paula Christiansen of the ad team is asking for healthgap contract. This is so Cranley channel 9 I'll be ashamed of it so calling yourself a news outlet. But we're about ready to wage a campaign against him and will see how they like it. Promise you it won't be pretty. 08:23

You can say to Cranley the black community is on pins and needles so we got to make sure the Manager is treated fairly 08:23

Just spoke to window and we have a new idea. Why doesn't council appointed a special counsel to look into the issues that them that Cranley is waging against black and write a report and submitted to council. This does two things one it takes away from this man being put on a public trowel and Sittenfield I don't think that's going to hode well for you and others either. Secondly Curt could receive all the testimony and and privately and will be able to determine the truthfulness of what the charges are out or allegations being made against them the manager. John wants this a public spectacle do not play into that. So you guys can put forward a motion that you will retain a special special counsel to receive the allegations made by the mayor in his witnesses before the special counsel and will write up a report relative to that. This will keep black level with a sense of of integrity and decency 08:23

Just got the word that Cranley is going to now the tech black as being a raging alcoholic. I could text Black and told him don't worry about it many people in the society of suffering from substance abuse but you must tell them that you're seeking and getting help. You saw this coming so reassuring him. Sittenfield I see no reason for him to leave now since John has trashed him so badly. Please keep him calm and tell him to hold on because the damage is already been done so why leave. We are standing with you 13:59

(iMessage)>

letter that's just gone out to media: 15:16

March 16, 2018 Dear Mayor Cranley, City Manager Black, Members of the Public, and Members of the Media: We have 6:48

watched this unfortunate saga unfold in recent days, and feel strongly that it is now on us - the Council Majority - to bring order and a fair process to this situation. To be clear, anyone who wishes to bring forward concerns or report misconduct must feel safe and comfortable doing so. We actively want your voice to be heard. We also believe strongly in due process. No one's name or reputation should be tarnished without there being clear evidence (beyond just "he said, she said") as well as a fair opportunity for that individual to respond. We share the serious concern of organizations like the Urban League, Community Action Agency, NAACP, Black Agenda, National Action Network, Black United Front, and others that present behavior is rolling back the clock on race relations in Cincinnati; we will not abet the intentional denigration of another black leader in our community. We also do not support forcing the taxpayers to pay out of their own pockets for what is currently a broken relationship. We believe there are much better immediate next steps. First, this situation clearly must be de-politicized and taken out of the hands of those most directly in the fog of war. Therefore, we are calling for the appointment of an outside Special Counsel (appointed by a majority of City Council), to collect and investigate the concerns raised by the Mayor, any and all counter-factuals from the City Manager, and testimony from city employees or any other directly involved stakeholders. This Special Counsel will then write a report to be submitted to City Council for our review. At the same time, we are calling for a ceasefire between the Mayor and City Manager, during which they both agree to say nothing more on the subject and to focus on the City's work. During this ceasefire, Council will bring in a pro bono mediator to privately help the Mayor and Manager navigate their relationship and return to getting things done for the citizens of Cincinnati. Lastly, during this ceasefire, we call for no personnel changes. Council will control this process as it unfolds, and if the need and desire for what the Mayor has called a "public trial" remains, then Council will control the time, date, and location of such a special meeting. Because of the significant interest from concerned members of the community, such a specially-called meeting would occur in the evening, be held out in the community, and be posted with at least two weeks notice to the public. We look forward to cool heads prevailing, these issues being properly addressed, and everyone getting back to work for the city we love. Sincerely, Tamara Dennard P G Sittenfeld

Good Morning: Black may be gone but Cranley will come after the Health Gap by getting the new manager to structure our contract that will set us up for failure. I'm very concerned about this as he asked for our contract Wednesday in his office press conference just last week. He will continue to run City Hall unless you guys insist that he abides by the Charter. Perhaps the special counsel should continue to exist to look at how the office of the Mayor and the manager is functioning. This person could come back with a report to the council which may review John's continuous interference with the managers office. In other words taking power he doesn't have and causing chaos and possible corruption. This is also an important step for recruiting future managers. No one will come to take the city managers job knowing that they won't really have the ability to manage because you have a rogue mayor. In fact you could use this point as the primary reason to have a special counsel look into the interactions of the mayors office and the city managers. You guys have to realize that Cranley has done some serious damage to the office of the city manager and the word will travel all of the country. Harry Black was lynched. 09.07

Mandamus action is a legal remedy to cause a government official or elective fish you to abide by the law. I E the charter, John is trying to circumvent the law through his gangster tactics. But if you retain an Attorney, it is likely that they will cause Cranley to follow the charger in dismissing the city manager. I am having a meeting with Kurp at 11 and I'll bring that up to him.

Good morning. I have a simple suggestion that might help with this current problem with Cranley. Since John has come up with all of these management issues relative to the city manager, the council should establish an oversight committee that will be a place where the manager can meet with this committee regarding management issues on a regular basis. This committee should be composed of two members of council, the mayor, and city manager. This will be a place where Cranley can assert any challenges and problems etc. regarding the manager. It is also the place where employees and others can have their issues addressed especially since Council pass the so-called whistleblower ordinance yesterday. Currently, the only person that has taken management over the manager has been John and we see how well that has worked. There is nothing within the charter prohibiting you guys from creating such a committee. I would put this in place no matter what, meaning whether Black goes or stays, because council has to have a role in working with the manager and especially when it comes to personnel issues regarding him. This is also a place that can be protection of black or the next city manager from John running roughshod over the city manager. The manager needs a buffer from John. This will be a collaborative working relationship between the mayor and council. The mayor could chair the committee but he will be an equal with the other members of the committee. This is very very important to have something like this because otherwise there is no way to address issues regarding the manager in a timely and Fair way.

Just so you know guys, I have decided that I can no longer work with Joe and Robert Richardson. This is confidential but I believe they are working behind our backs with John. Joe sent out an email Thursday calling for putting together a list of things that we want if the manager is let go. I responded to them and told them that I don't even know why we as a community should benefit from this man losing his job. And furthermore, that conversation doesn't help keep Councilmembers Strong. Black Agenda no longer part of the coalition. And besides, they were mostly my people anyway

I understand. Cranley called me this morning asking that very question. I told him there is nothing I want that can be negotiated with Black leaving as the desired outcome. He asked for my advice. Channel 5 called me this afternoon for an interview regarding a Press statement that Cranley released today in opposition to a recall provision that Young had expressed interest. In Cranley's press release, he singled me out as leading the charge because he wouldn't fire Dr. Owens from the acting health commissioner position he once held. First of all, as you all know the mayor has no power to hire or fire any employees under the Board of Health. Notwithstanding this fact, he continues to use this against me and the center to do the same thing he's doing to the city manager - to trash our reputation. Just for the record, I do support a recall provision but in no way am I leading a charge. I will not be bullied by John who continues to try to find ways in which to stop our funding. John continues to break the law by violating the charter. I am letting you know that I will take whatever steps I need to do to protect my reputation and the center's. I'm not looking for a public fight with Cranley but I will not run from him. I will protect my reputation and the center which he has done everything to try and destroy. I just want you guys to know that I've had enough of this guy, his lies, and despicable behavior. He continues to gun for me at every turn crying at the same time that he's a victim.

Me too. This guy is the local Donald Trump, through and through.

So John is back to his usual crazy self and getting the business community to pound Lance. Here's an idea, why want to or three of you in the collation issue a press statement condemning Cranley's actions in having the business community target Greg Landsman. This could help Gregg feel better as this may shift public attention back on the five members of council and not just Landsman. You should also say to Gregg look how long Jon is treating you and getting the business community to pressure you like this. Also you should remind Gregg that he has presented a very sympathetic image in the black community. Even if Harry goes, there will be major marches and protests about this decision. I've talked to Curp about the charter amendments and ballot initiatives - he's researching whether it could actually "re-set the clock" or not; he wasn't sure, but seemed doubtful 11:51

You guys really need to think about calling a special Prosecutor 19:30
to look into the new allegations made by the manager which
are criminal in nature. You can't put the genie back in the
bottle. In other words you guys have got to move forward on
this or it will make you look like you guys are not taking this
seriously. Black told me earlier this week that Cranley is corrupt
and the network is vast.

Chris Seelbach <+>

(SMS)>

If the City Manager, or anyone, has real evidence of an illegal 20:22
pay to play scheme regarding Mayor Cranley, then this is
bigger than a special prosecutor. I've told the Manager that if
this evidence truly exists, he needs to contact the FBI
immediately.

Wendell Young <+>

(SMS)>

I think WE need to move on this and we should contact the 20:24
Feds or get a special prosecutor. How do you feel about a
press conference tomorrow regarding this?

Dwight Tillery <+>

(SMS)>

Just got off the phone with Black. He believes that you guys 20:43
have an obligation to look into Cranley's behavior as far as the
economic development situation is Concerned. This is not just
Harry's problem but the councils problem when you have a
mayor who is involved in economic development issues. You
guys should talk to Black first and see what he saying. He said
to me that the developers are calling his staff when They don't
get their way. Then Cranley comes to him and says his staff is
holding up so he is putting pressure on black. You guys need to
deal with that. He further said that Cranley told him that he was
going to do what the hell he wanted to do with economic
development because this will be his future so black needed to
get out of his way. The criminal aspect of it will take care of itself
because I believe ultimately Black is going to give more
information to the FBI. Black need you guys to look into this
conflict between black and Cranley over the economic
development department. This in and of it's self is not an FBI
issue but compliance with the city charter. Are you guys going

to have to stand up in a very big big way. You also got a know that this is the tip of the iceberg there is just too much out there about Cranley's hands in development deals. You guys also have the capacity to go to the FBI to ask them to look into the situation.

Wendell Young <+

(SMS)>

I agree. Waiting to hear back from Seelbach and Sittenfeld.
Also will reach out to Derrard. I think that's all I can contact.
Will ask one of them to reach out to Landsman. We can't leave Harry hanging. He has given us a reason to act. We can't just sit on this.

Sorry I hit wrong key. Black people feel very passionate about that community and I think it will really hurt you in a mayoral race. Secondly, I must tell you that if you have a black person who voted against the FC deal, he or she will have a very very strong leg up in the black community against you. We know it probably will not be Smitherman but I have to say this to you although I'm a little reluctant but I keep feeling this in my spirit and I'm sharing this with you confidentially. do not count out Dennard. She is coming on very strong in the black community and well liked. Politics is very unpredictable and people do change over time. She impresses me as a person that has great ambition although it may not necessarily show through her exterior. You want to be on the right side of the black community on this especially after Jon has let us down so badly.

You're my friend and I would not criticize you publicly if you go in a different direction. And because you are my friend, I wouldn't feel comfortable in doing that. However I would love to see you be on the side of the people As I think this will really establish you strongly in the black community far greater than supporting the city manager. Period. Black people need some visible and significant wins.

I think you're making the biggest political mistake. Black community will turn its back on you. They see you no different than Cranley. So sorry.

My phone was ringing off the hook with text messages and actual calls. Very broad spectrum of people who Believe you are portraying the black community. There is no possible way that you can make good with any CGA package for black people who have suffered as a result of how we were treated by urban renewal, and now a soccer stadium. Many black people are saying that they've given you their votes but when it comes down to really hard issues in favor of the black community, you do a song and dance. When white people tell you what they want, you listen and do what they ask. However, when black people ask for what they want, white people always say they know what's best for us. I'm sharing with you what is being said. I just don't think you get the gravity of the damage that will be done in pulling that soccer stadium down in the last historical neighborhood for black people. You won't be able to overcome this. As your friend and confidant please don't make this political mistake.

This Sunday, I will have an op-ed piece in the Enquirer which I hope puts this whole thing in perspective. I am deeply concerned that your position on this will affect your future political ambition. Smitherman and others have been working hard at finding a way to have real negative impact on you. The conversation deep in the black community is not very favorable particularly in regards to your position. I simply don't know how you will be able to overcome the opposition to your position in regards to this matter. I share this with you as a faithful and loyal friend. I hope that you can find a way to not support this stadium. I truly believe that this will come back to hurt you in ways you can't see now.

Thank you, Dwight. I'll look forward to reading your column. I did my best to lay out my reasons for my position in great detail. I greatly respect your difference of opinion. The schools piece was a non-negotiable for me, and when that piece came together (along w/ other aspects), I believe in the good this proposal can do for the community. I also understand that if this vote, or any other vote, causes me to not have a future in public service, I can live with that so long as I know I did what I believe to be the right thing.
